

ResinAway® EzyWipes™ | Easy Cleaning

1. Product Overview

ResinAway® EZY-WIPES™ are industrial-strength cleaning wipes developed for the fast and effective removal of uncured resin, adhesives, and other stubborn contaminants from equipment, tools, and hard surfaces.

Pre-saturated with a powerful cleaning formulation, they provide a convenient, non-flammable, low-odour solution for quick clean-ups without the need for liquid cleaners. EZY-WIPES™ are suitable for residential, commercial, and industrial environments, particularly within resin 3D printing workflows where speed and cleanliness matter.

2. Key Features & Benefits

- ✓ Non-flammable formulation for safer use and storage
- ✓ Low odour for improved working conditions
- ✓ Pleasant bubblegum scented
- ✓ Large wipe size of 16 × 24 cm for better coverage
- ✓ Industrial-strength performance for demanding cleaning tasks
- ✓ Fast-acting formula to remove residue efficiently

3. Applications & Areas of Use

ResinAway® EZY-WIPES™ are safe for use on solvent-resistant substrates including glass, ceramics, metal, chrome, most plastics, stainless steel, rubber, laminates, stone, bench tops, and work surfaces.

- ★ Uncured photopolymer resins
- ★ Silicones
- ★ Adhesives
- ★ Label residue
- ★ Paint and overspray
- ★ Rust and water stains
- ★ Tar, grease, grime, and scuff marks

4. Physical Properties

Property	Value	Test Method
Odour	Low	Organoleptic
Shelf Life	36 months	Internal QC

5. Equipment Compatibility

- Compatible with many solvent-resistant plastics, metals, and coated surfaces used in resin 3D printing equipment
- Prolonged contact may affect low-grade plastics, painted surfaces, or non-solvent-resistant materials
- Test on an inconspicuous area before regular use
- Avoid extended contact on sensitive components
- Monocure3D accepts no liability for damage resulting from improper use or failure to verify compatibility

10. Disclaimer

The information provided is based on laboratory testing and practical use. Results may vary depending on printing conditions, equipment, and handling. Users must test compatibility with their equipment and materials prior to regular use. Monocure3D accepts no liability for misuse or application outside recommended guidelines.

6. Directions for Use

1. Remove the lid and peel off the foil seal.
2. Locate the first wipe in the centre of the roll and feed it through the dispensing opening.
3. Wipe the surface to remove resin or contaminants. Use a dry paper towel, damp cloth or SprayAway™ to remove any remaining residue.
4. After use, reseal the container by firmly closing the lid to prevent drying.

7. Health & Safety Information

- **Keep out of reach of children & animals**
- **Use in a well-ventilated area**
- **Avoid eye contact, rinse with water if contact occurs**
- **Wipes are single-use only. Dispose of used wipes in a bin. Do not flush.**
- **Refer to SDS (Safety Data Sheet) for complete handling guidelines www.monocure3d.com.au**

8. Storage & Handling

- **Store between 10°C and 40°C** away from direct sunlight
- **Shelf life minimum 36 months** when stored correctly
- **Non-flammable and non-hazardous**
- **Dispose** of according to local waste regulations

NB: ResinAway® EZY-WIPES™ are designed to remove uncured photopolymer resin and other tough residues, but prolonged contact may affect certain low-grade plastics or sensitive surfaces. Avoid extended exposure on painted or non-solvent-resistant materials. Wash and cure unit bases and other low-grade plastic components should be wiped clean promptly if contact occurs. Always test on an inconspicuous area before regular use.

9. Ordering Information

- **Product code:** 3DRA-3996
- **Sizes:** 100 wipe dispense pack
- **Scent:** BubbleGum
- **Where to Buy:** Available through **[Monocure3D resellers](#)**
